Higher Secondary Education (HSC) | 82.67 %   *July 2022 – May 2023*

L.V.B.E.M.School,Bramhani   Ahmednagar, MAHARASHTRA
Secondary Education (SSC) | 96.60 %   *July 2020 – May 2021*

EXTRACURRICULAR ACTIVITIES

Technical Event Team Member   August 2024 – Present
Code Craft Coding Club

- Assisted in planning and executing technical events and activities for the club.
- Represented the club at various intercollegiate events and competitions.
- Coordinated and documented technical workshops, coding contests, and guest lectures.
- Contributed to the creation of technical blogs, newsletters, and event reports.

PROJECTS

<u>MedPal</u> | **Live** | *ReactJS, TypeScript, NodeJS, Express, MongoDB, Tailwind CSS*

- AI-powered healthcare web platform for symptom checking, doctor appointment booking, and clinic locator.
- Frontend built with React and TypeScript for robust, type-safe development.
- Features secure authentication, user profile management, and a real-time chatbot for instant health guidance.
- Modern, responsive UI with seamless frontend-backend integration.
- Live deployed on Vercel (frontend) and Render (backend).

<u>Build-a-Box</u> | **Live** | *ReactJS, NodeJS, MongoDB, Tailwind CSS*

- A full-stack web application for building and customizing snack boxes from a wide range of products.
- Build Your Perfect Snack Box Choose from 100+ snacks and customize your box as you like.
- Features user authentication, admin dashboard, category-based product management, responsive UI, and smooth checkout.
- Live deployed on Vercel with seamless frontend-backend integration.

<u>Finance Visualizer</u> | **Live** | *Next.js, TypeScript, Node.js, MongoDB, Tailwind CSS*

- A modern personal finance dashboard to track expenses, visualize spending trends, set budgets, and gain actionable insights.
- Full-stack application with a responsive, mobile-friendly UI and seamless frontend-backend integration.
- Features interactive charts, category analytics, budget planning, and real-time transaction management.
- Deployed live on Vercel (frontend) and Render (backend).

<u>Campus Connect</u> (Website for Connecting with Students) | *HTML, CSS,Javascript*

- Creates a unified digital space for students to engage beyond classrooms.
- A platform for college students to connect, collaborate, and share resources.Enhances communication, simplifies event coordination, and promotes academic collaboration.

Technical Skills

Programming Languages: C++, JavaScript, Python,Basics of Data Structures and Algorithms(DSA)
Web Technologies and Frameworks: HTML, CSS, JavaScript, ReactJS, NodeJS.
Subjects:Object Oriented Programming, Fundamentals of Data Structures and Algorithms
Databases:MySQL, MongoDB
Competitive Programming: **400+ Problems solved on** **<u>Codechef</u>** (Max rating **1383**)

Achievements

- Participated and Selected in Internal Hakathon.

- Solved **400+** coding problems on **<u>Codechef</u>** (Max rating **1383**)
